SUMMARY

Passionate and detail-oriented Front-End Web Developer with hands-on experience in React.js, Next.js, TypeScript, and Tailwind CSS. Skilled in building high-performance, scalable, and visually engaging web applications. Focused on crafting responsive user interfaces and seamless digital experiences for e-commerce and modern web platforms. Dedicated to writing clean, maintainable code that meets modern UI/UX standards.

PROJECT EXPERIENCE

Luxecart E-Commerce Platform (2025)

A sleek, responsive, and production-ready e-commerce interface crafted with Next.js, TypeScript, and Tailwind CSS to deliver a smooth and engaging online shopping experience.

- Built dynamic category navigation and smart product filtering for intuitive user flow
- Designed fully responsive layouts optimized for all screen sizes and devices
- Integrated modern animations and refined UI elements for a high-end visual appeal

Rolax Resort Hotel Booking Website (2025)

A fully responsive, professional hotel booking interface built with React and Tailwind CSS, delivering a sleek, immersive, and interactive user experience.

- Developed responsive layouts for all devices with modern UI elements and smooth animations
- Designed individual room booking pages, gallery pop-ups, restaurant & bar sections, blog, and contact page with embedded Google Map
- Integrated interactive components using Framer Motion, React Icons, and Lucide React for high-end visual appeal

Fizz Beverage Landing (2025)

A sleek, fully responsive landing page for a beverage brand, built with React and Tailwind CSS, designed for user-friendly interaction and professional visual appeal.

- Created responsive layouts with smooth animations and modern UI/UX elements for product showcase, company story, blog, FAQ, and contact sections
- Implemented hover effects, Framer Motion animations, and professional footer with icons for high-end user experience
